

Statistical Advisory Unit, Department of Mathematics, Howard University
Providing Statistical Advice and Support on Research at HU and Beyond
Booking Request Form*

Name: Title: Position:
Department/Company: Email: Phone:

What you request from SAU:

- Advice on how to set up experiment and collect data in order for effective and valid analysis;
- Advice on how to proceed with analysis of existing data, software recommendation;
- Advice on interpretation of results of statistical analysis/computer output;
- Advice on submitting results for publication,
- Advice on responding to referee's comments on statistical aspects of submitted paper.

If two or more boxes are ticked above, then please consider

Collaboration/continuing support budgeted for in grant application.

What we expect in return:

- acknowledgment in publication for help received/advice taken on routine procedures;
- co-authorship in joint publication for tailor-made solution; and,
- a fee for time taken beyond initial free consultation unless otherwise agreed.

Title of Project:

Description of problem:

Any particular adviser in mind?

*PhD students should ask their supervisor to fill in this form. Save the file in Acrobat Reader DC and attach it to the contact email listed on the SAU web page. We aim to respond within 3 or 4 working days, but it may take longer, especially during semester time.
